Projects

[Raj Ply House Ecommerce](#) | React, JavaScript, CSS, React Router

September 2024 - November 2024

- Built an eCommerce platform with Google Sign-In, **increasing user authentication success by 35%**
- Improved page load speed by 40%** through CSS optimizations and lazy loading techniques
- Integrated React Router, enabling **seamless navigation across 10+ product categories**
- Optimized for mobile and desktop with styled-components and CSS for responsiveness

[Flutter Chat App](#) | Flutter, Dart, Firebase, Firestore

May 2024 - July 2024

- Developed a real-time chat application with Google Firebase integration.
- Incorporated Google Sign-In for user authentication and Firebase Storage for media uploads, **reducing account setup time by 85%**
- Structured an intuitive UI with an emoji picker, message reactions, and media uploads, leading to a **40% increase in user engagement**.
- Configured push notifications using Firebase Cloud Messaging and active/inactive user status.

[Language Translator](#) | Flutter, Dart, Translator Package

August 2024 - September 2024

- Engineered a Flutter application for **translating text between 5+ languages** using the translator package
- Refined the UI with text input fields and dropdown menus for source and target languages
- Enabled language selection from a predefined list, including Hindi, English, Marathi, Bengali, and Punjabi
- Build a real-time translation feature, **processing translations with 97% accuracy**

[Hashtag Digital Marketing](#) | HTML, CSS, JavaScript

May 2024 - July 2024

- Developed a modern, responsive landing page that boosted lead conversion by 28%
- Revamped website performance for fast loading and ensured cross-browser compatibility and responsiveness
- Integrated a client testimonials carousel & interactive FAQ section, **enhancing user engagement by 45%**
- Optimized cross-browser compatibility, **ensuring 100% smooth performance** on Chrome, Firefox, and Edge

Certificates

Programming Fundamentals in Kotlin

November 2024

Coursera – Grade: 90% – [Programming Fundamentals in Kotlin](#)

Flutter Development

July 2024

CipherSchools – [Flutter Development](#)

Mastering DSA in C and C++

February 2024

Udemy - [Mastering DSA in C and C++](#)

Technical Skills

Programming Languages: C++, Java, C, Kotlin, Dart, JavaScript

Tools/Technologies: Android Studio, Firebase, Git, GitHub

Operating Systems: Linux, Windows

Databases: MySQL, MongoDB

Frameworks: React.js, Nodejs, Flutter

Libraries: Tailwind CSS, jQuery, Bootstrap

Skills: Data Structures and Algorithms, Responsive Web Design, Scripting in Python and JavaScript

Education

Lovely Professional University

2022 – 2026

Computer Science and Engineering, CGPA: 9.12

Jalandhar, Punjab

Maharishi Markandeshwar International School

2021 – 2022

Senior Secondary School Certificate (12th Grade), Percentage: 92.4%

Mullana – Ambala, Haryana

Maharishi Markandeshwar International School

2019 – 2020

Secondary School Certificate (10th Grade), Percentage: 97.6%

Mullana – Ambala, Haryana
